

Team AZ Smashers Academic Eligibility

The eligibility criterion for extracurricular participation shall be a passing grade (60%) in all classes in which the student is enrolled, and the student shall maintain progress toward promotion. Ineligibility will be determined at the conclusion of each two week reporting period, and any change in eligibility status will occur on the first official day following the last day of the previous eligibility period. Parents and students will be notified in person by the head coach. If a conference with the with the teacher is held, the coach/parent will review with the student the options for remediation available to the student in order to clear all academic deficiencies and regain eligibility status. Immediately following any grading interval in which a student is determined to be academically ineligible, a period of ineligibility will be imposed and will last until all grades are restored to passing on a cumulative basis unless the student is ineligible for some reason other than academic performance. If a student becomes ineligible, it will be the responsibility of the student and parent to make arrangements with the classroom teacher involved to obtain additional help to aid in reestablishing eligibility.

AZ Smashers Eligibility Procedures

Each student will be required to receive a passing grade in all classes. Students not meeting the grade requirement will become ineligible (pending) immediately and remain ineligible until their grades have met the eligibility requirements. Grades will be monitored every two weeks. If a student is still failing during the second grade check and was pending they will be put on the failing list. If the student was not put on the pending list, they will not be put on the failing list. Before being allowed to participate in practice or games, every student must be determined to be eligible through the head coach. Failure to raise a failing grade twice in the same class during the club ball season will result in the removal from that team. A student who becomes ineligible at the end of any grading interval will be permitted to participate in practice sessions but may not participate in team or group competition or performance. Any player dues that have been paid in full for the month and the players is released from the team, for any reason, will not be reimbursed to the player/family.
